Subtracting from 10

$$15 - 9 = 6$$

$$\begin{array}{r} 10 \\ 5 \end{array}$$

$$10 - 9 = 1$$

$$5 + 1 = 6$$

$$13 - 8 = 5$$

$$\begin{array}{r} 10 \\ 3 \end{array}$$

$$10 - 8 = 2$$

$$2 + 3 = 5$$

$$14 - 6 = 8$$

$$\begin{array}{r} 10 \\ 4 \end{array}$$

$$10 - 6 = 4$$

$$4 + 4 = 8$$

$$11 - 7 = 4$$

$$\begin{array}{r} 10 \\ 1 \end{array}$$

$$10 - 7 = 3$$

$$4 + 3 = 7$$

$$16 - 8 = 8$$

$$\begin{array}{r} 10 \\ 6 \end{array}$$

$$10 - 8 = 2$$

$$6 + 2 = 8$$

'What is the smallest number for which this expression is true?'

$$13 - \boxed{9} < 7$$

$$13 - \boxed{2} < 7$$

'Fill in the missing numbers.'

$$11 - 3 = \boxed{8}$$

$$14 - 6 = \boxed{8}$$

$$12 - 9 = \boxed{3}$$

$$16 - 7 = \boxed{9}$$

Why was the River Nile important to Ancient Egyptians?

15.9.26

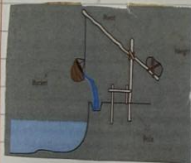

The River Nile was important because once a year it would flood, making the ~~soil~~ soil fertile.

- ✓ River Nile
- ✓ fertile
- ✓ Egypt
- ✓ trade
- ✓ papyrus
- ✓ irrigation
- ✓ shaduf
- ✓ transport

The Egyptians made irrigation which is used to transport water from one place to another.

This is called a ~~shaduf~~ shaduf. It is used to scoop up water from one place ~~as~~ and ~~pour~~ pour it in another place.

This is Hapi. He is the God of the Nile. People believe they prayed to him, ~~it~~ he would make the Nile ~~from~~ flood.

There were many boats in the Nile being used for traveling to other places to trade for papyrus and other things.

Farmers also used to fish in the River Nile, but stopped because there were crocodiles in there!
