

Recognition assembly – Years 4, 5 & 6

16th October 2026

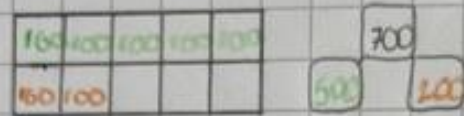

Year 4

Leaping forward, the first gladiator stabbed at his opponent. The second gladiator ducked, and the deadly blade skimmed his hair as he kicked aggressively at his match. They pranced like gazelles and twirled like dancers until the first gladiator was on the floor and the second gladiator was awaiting the Emperor's decision: live or die. The crowd cheered and screamed with excitement. To my relief, the Emperor put the thumbs up and the winner helped the loser get back on his feet.

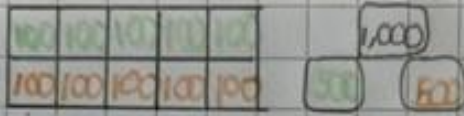

Year 4

Bridging 1 0 0 0 13 . 1 0 . 2 6

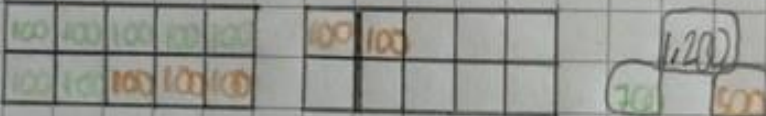

a. $500 + 200 = 700$ ✓

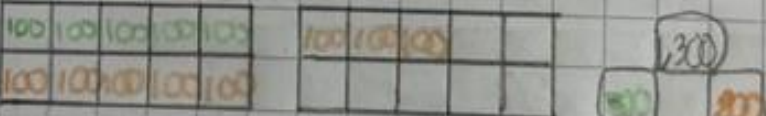

b. $500 + 500 = 1,000$ ✓

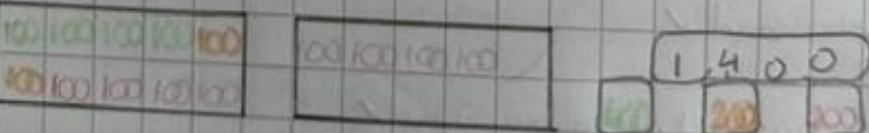

c. $700 + 500 = 1,200$ ✓

d. $500 + 800 = 1,300$ ✓

e. $400 + 200 + 800 = 1,400$ ✓

Year 5

6.10.2026

Ravens of the shadows, will ^{you} ride beside me into this battle? If not, I can promise you one thing ^{Only,} we shall win and a great win it shall be! Gather your swords and bid farewell to the village which carried many memories. No matter what happens they shall remember us! For this is the last time you shall speak words to your family! May your rage inflict terror and cease have. ~~in the end may your swords be~~
AAAaaaaargh! Come on Anglaland!

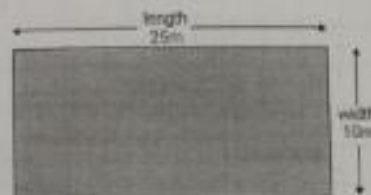

Year 6

Problem Solving

15.10.2026

A rectangular swimming pool is 25 metres long and 10 metres wide.

David swims 4 lengths.

Rosie swims 3 widths.

D 25 25 25 25 25

R 10 10 10 10 10 10 10 10 10 10

$$\begin{array}{r} 25 \\ \times 4 \\ \hline 100 \\ 100 \\ 100 \\ 100 \\ \hline 100 \end{array}$$

$$\begin{array}{r} 10 \\ \times 3 \\ \hline 30 \\ 30 \\ 30 \\ \hline 90 \end{array}$$

$$\begin{array}{r} 25 \\ \times 5 \\ \hline 125 \end{array}$$

$$\begin{array}{r} 25 \\ \times 4 \\ \hline 100 \end{array}$$

How much did they ~~swim~~ swim together?

How much further did David ~~swim~~ swim more than Rosie?

David has 5 more than Rosie.

In a supermarket storehouse there are

7 boxes of tomato soup

5 boxes of pea soup

4 boxes of chicken soup

There are 24 tins in every box.

How many tins of soup are there altogether?

Layla makes jewellery to sell at a school fair.

Each bracelet has 63 beads.

She makes 66 bracelets.

Each necklace has 108 beads.

She makes 34 necklaces.

How many beads does Layla use altogether?

Tomato Soup	Pea Soup	Chicken Soup
7	5	4

Year 6

T hornhill independent write

Dante is very ~~concerned~~ ^{worried} about ~~this~~ ^{that} every thing and looks
to him almost like insupportable drama and almost every evening there is some
humiliation how it feels like if you are born. Dreamer's mind is to see
new house and make new grounds but in the same time he is not reading
sweet with garden. It's both long distracting and the silence is killing.
I can't sleep, I want sleep, but ~~how~~ ^{why} was that in the corner or my eye?
What were those things? Is his thoughts were consuming him with
some nightmare ~~and~~. The following night some thing drove
him to explore the ~~but~~ ^{building} roofless building.

* He stood up trying hard not to stammer ~~with~~ his eyes peered through the lasty stained window. ~~He~~ There was a building built like chocolate cake.

* "Sorry Jack but I have to go, see you in ~~the~~ two business days!" The last scream shut like a house got sleep.
