Year 3

Erin reached her hand, dipping it in the sapphire-coloured water while watching the sunset. She touched the chilly, rippling waves. The fresh smell of fish travelled through her nostrils. The cuttlefish followed the stingray and blackrock joyfully followed the cuttlefish. In the Teal water Erin saw millions of little and big fish swimming calmly.

Working as a team, they made it all the way back to the shore.

They had an excellent time - but more than that, they had learnt that teamwork makes the dreamwork.
