### DIVERSITY: WAYS INTO CURRICULUM BUILDING

①-②-③-④

EXPAND THE UNIVERSE

HIGHLIGHT PARALLEL STORIES

MAP MIGRATIONS

DIVERSIFY FACES

COUNTER DOMINANT NARRATIVES

- When considering diversity in the curriculum, aim to usalise the inclusion of ide stories, experiences and histories of people with protected characteristics.
- Avoid the word 'normalise' because 'normal' implies a right way of being. We usalise to show that all experiences are part of the fabric of society.
- Diversity in the curriculum is essential to create global citizens who have an awareness of where they fit into the world.
