Turtles

Where does it live?

Turtles live in
every continent
except Antarctica.

What does it eat?

Tortoises are herbivores.

This means they only
eat plants.
~~eat fish~~

What does it look like?

All turtles have a
shell. This helps
protect them from
predators.

Did you know?

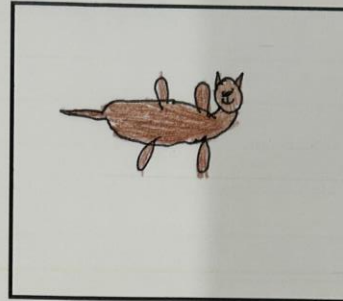

There are over
300 species of
turtle.
are are are are

otters

Where does it live?

some otters
live in freshwater.
This includes
rivers and lakes.
Other otters live
in the sea.
River otters
usually sleep in
a hole or a burrow.

What does it eat?

otters are carnivores.
otters use rocks
to break the shells
of their prey.

What does it look like?

otters have scurf
to keep them
warm. They
usually light to
dark brown in
colder. They
have a flat
tail to help
them swim.

Did you know?

sea otters often
sleep floating in
the water. They
hold hands to stop
them drifting
apart.

Henry was already a speedy eater.
Then he became speedyer and speedyer
untill he was the speedyest book eating
person in Britain. People that read the
paper were horrorgide and uterly disgusted.
Everchuly, he could solve his dads crosswo
rd gnome eating yestendays paper.

Sp - speedier speedier
 speediest speediest
