## Using difference to compare data

The pictogram shows the number of ice creams sold each day.

Day	Number of ice creams sold
Monday	
Tuesday	
Wednesday	
Thursday	
Friday	
Saturday	
Sunday	

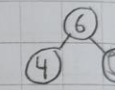

How many more ice creams were sold on **Saturday** than **Friday**?

$$10 - 4 = 6$$

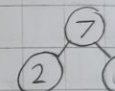

What is the difference in the number of ice creams sold on **Monday** and **Sunday**?

$$3 - 5 = 2$$

How many fewer ice creams were sold on **Thursday** than on **Wednesday**?

$$7 - 2 = 5$$

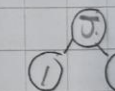

The pictogram shows the colour of cars parked in a car park.

Colour	Number of cars in car park
Red	
Blue	
White	
Yellow	

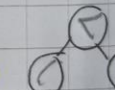

How many fewer **blue** cars are parked than **red**?

$$5 - 4 = 1$$

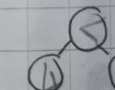

What is the difference in **white** parked cars and **yellow** parked cars?

$$6 - 1 = 5$$

How many more **white** cars are parked than **blue**?

$$6 - 4 = 2$$

Can you write your own difference questions for this pictogram? Can a friend answer them in your book?

introduction  
Egypt is located in the north of Africa. Ancient Egypt started at 3100 BCE and ended at 30 BCE. It's most famous for its buildings and

Ancient Egypt is located in the north of Africa. But did you know that there are actually two lots of different types of people who live there such as the Hyksos and Nubians.

These are canopic jars. The red ones were used to put sweet body parts in. The ones that are not thought to be important were just thrown away.

Do you want to hear the sphinx's riddle? Well you have legs then walk on 4 legs then walk on 3 legs. Well the answer is a human because first when you're a baby you crawl on all fours then you're able to walk properly but then you need a walking stick.

As the glacial water rapidly falls, it is important to make sure it has tall walls.

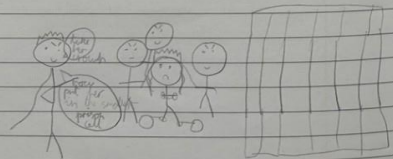

gods and goddesses of Egypt each god would look after and represent something like these gods here do.

Mummies

The mummy - mummies love the bodies to a place called the beautiful house.

Stages of mummification  
1. delicacy

The family delivers the body together with linen needed for mummification. The corpse is measured for its coffin.

2. de-braining  
After the body has been laid out on a stone table, the brain is often removed through the nose with hooks. The inside of the skull is then washed out.

3. gutting  
The corpse is cut open down the left side and the internal organs except the heart and intestines are removed for separate preservation.

4. washing and shipping  
The body is then washed inside and out.

5. drying  
To stop the body decaying, the natron salt is powdered all over and are 6 over and put inside in bags.

7. oiling  
The body is put on a wooden long table. It is rubbed with oils. The nose holes plugged eye sockets padded out. Resisting spells or other
