Eddie took the Smelly Pony, itt ybitty  
towards the fountain in the town square.  
She used the Peat button to activate it ins  
stead of a coin.

~~Within~~ Within ~~1~~ 1 milli seconds the fount  
ain turned on with extraordinary ~~beams~~  
beams of water.

PP2 - Fluffy on a roof

Freezing and depressed, Eddie lit off on a wall. Suddenly a ~~bird~~ <sup>bird</sup> full of noise ~~show~~ <sup>show</sup> began to fall from the ~~ceiling~~ <sup>ceiling</sup> was getting louder and louder each time she tried to look. "There you were!" she ~~cried~~ <sup>cried</sup>. "How ~~was~~ <sup>was</sup> this bit man came too ~~late~~ <sup>late</sup> Billy jumped in the bit feeling scared the bit man was taking the bit but Eddie said "I'll give you his press stamp for that bit" Eddie ~~said~~ <sup>said</sup> it the bit man he said "Fine" he gave the bit and drove away the little bitly jumped out Eddie and fell in her hands Eddie was ~~over~~ <sup>over</sup> the moon.

++ Tectonic plates 10.11.25

Tectonic plates move in three different ways.  
**Divergent** plates plate boundaries move away from each other and cause ridges. **Convergent** plates boundaries move towards each other and cause earthquakes, mountains and volcanoes.  
**Transform** plate boundaries rub and move and can cause earth quakes.

Tectonic Plates. 10.11.25

1. Explain the different way tectonic plates move and what happens as a result.

Key words

Stem sentences

A ~~convergent~~ plate boundary is when tectonic plates move \_\_\_\_\_.

This causes \_\_\_\_\_.

A ~~convergent~~ convergent plate boundary ~~is~~ is when tectonic plates move towards ~~each other~~ each other. This causes earthquakes, mountains and volcanoes.

A divergent plate boundary is when tectonic plates move away from each other. This causes ridges.

A transform plate ~~boundary~~ boundary is when tectonic plates move side to side. This causes earthquakes.
