## Adding multiples of ten

Complete the number sentences.

1.  $43 + 10 = 53$

2.  $43 + 20 = 63$

3.  $43 + 30 = 73$

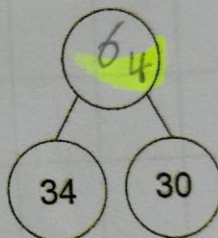

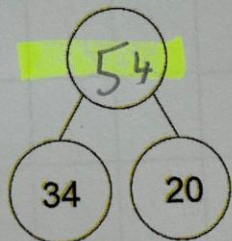

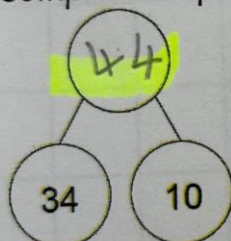

4.  $21 + 10 = 31$

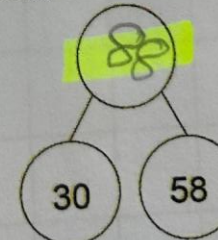

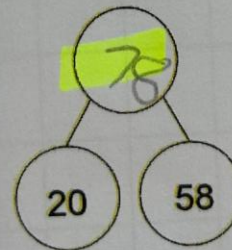

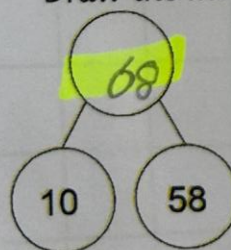

5.  $21 + 20 = 41$

6.  $21 + 30 = 51$

Complete the part whole models.

Draw the model that would come next.

$43 + 10 = 53$

This child was chosen because of their great progress with using a 100 square to add multiples of 10, and their increasing confidence in maths.

Magnets 21.11.25

magnetic field

South Pole

North Pole

bar magnet

magnets have two ends They are called North Pole and South Pole.

attract

attract

attract

attract

This child was chosen because of their excellent use of technical vocabulary and their ability to explain what they had learned about magnetism.

21/11/25

He followed the trail of light out of the forest and there in front of him was a power station. It seemed colossal and ~~overpowering~~ overpowering to Hogarth's father, who was miniature, powerless, isolated and ~~and~~ isolated. ~~Crash!~~ Clank! ~~Screach!~~ Hogarth's dad He froze ~~with~~ with horror... THE IRON MAN! Hogarth's father was petrified by what he could hear. "Is this the end of me?" IS this the end of me? He thought as he pelted for his life back ~~throu~~ through the forest. ~~As~~ As he ran back he spotted a shadowy silhouette glaring down above his head...

This child was chosen because of their precise word choices, and their ability to effectively set the scene and create an atmosphere for the reader.
