

An abstract graphic featuring several overlapping, thick, curved lines in shades of green and blue. The lines are arranged in a way that suggests a stylized 'e' or 'u' shape, with the green lines on the left and blue lines on the right. The background is white.

Year 4

The girl and the boat sailed as it ^{left} ~~leaved~~ a rippling trail. She ^{excitedly} sailed through a labyrinth of glaring water falls, and water was filled it with gondolas and passengers in place of where Shiny cars and straight roads. Peacefully, she sailed as the steady waves rocked the boat. "Watch out!" "Danger ahead!" She could not hear she was still exhausted from the trip she nearly reached the edge will she survive or die?...

August 28, 2597 (in a different multiverse)

(His friends call him foxy) (he lives on a volcano)

Focil is just like anyone else quiet tall. He is the fastest in the school, but nobody notices him. And right behind him is his best friend bonie but everyone calls him

bon bon and every month they go cave diving.

(text)

ya ready cuz a new cave opened at the bottom of the volcano not the one that you live on :)

Nice.

Nice is that the only thing that you can say???

Dude this is massive!!!

People say there's gold maybe even ruby!!!

We're going to be rich!!

Four days later at the cave.....

"I'm going to go in first" "fine" bon bon grumbled

As bon bon set up the gear foxy ran down into the darkness.

"Foxy where the hell are you going you don't even have the flashlight!!!"

"Leme, guess he took our only flashlight" (looks) "and of course he did"

"AGH FOXY!!!!!"

As foxy went deeper into the cave a crack emerged from the darkness

A soft crimson glow emanating from it.

Squeezing through the gap a rose red cherry tree unravelled within a small room.

One square bloodshot redfruit hanging from a branch the pale pink leaves resting on top.

*A deep robotic ...no... **godly** voice echoed through his head.*

"Take it and face the god of pain and suffering and fight the curse of the sea and charge though death itself but take the pain and the rage of others and Transend into a godly form using people's fury as fuel for the dragon Sheth the agony nuke and the tormenting pulse of

the death bringer.....Akai Itmai

(that's Japanese^)

As I was wondering what to do with the weird fruit until a familiar voice broke the silence "DUDE GET OUT THE CAVE IS COLAPSING!!!!" shouted bonnie (from outside the cave entrance)

I quickly stuffed the fruit in my bag and ran the small room omst sensing the danger blocked the entrance with a massive bolder right after I left lava swooping in right behind me.as I neared the entrance I started to think about the weight of the situation a mythical glowing tree a god thing talking to me and a fruit that can (allegedly)give me powers.

"DUDE WHERE WERE YOU BECUSE YOU TOOK OUR ONLY FLASHLIGHT AND THEN RAN OFF TO OMST DIE TO AN OVERFLOW OF SCOLDING HOT LAVA AND FRESH MAGMA !!!!!!"

"I mean at least I'm alive righhhht"

"YEAH, BERLY THE BACK OF YOUR SHOES ARE MELTING"

"oh"" well it aint that bad "

"dude "

In his room foxy stared at the glowing fruit a bloody bandage looking thing wrapped around the corner of its head

You must eat it to gain the powers of akai itmai the death bringer and God of pain

The words echoed in his head...

"akai itmai... that's a weird name "he muttered

"Pain...how can pain be a power?"

As he was about to eat the strange fruit his mum called him for dinner, he quickly shoved the fruit into his mouth and went downstairs a horrible taste filling his mouth beckoning him to vomit

"So how was the cave?" asked his dad

"Fine I guess not much"

"Apart from when I got my shoes burnt by lava"

"How?"
