

An abstract graphic featuring several overlapping, thick, curved lines in shades of green, blue, and yellow. The lines are arranged in a way that suggests a stylized 'e' or a similar character, with the green line on the left, the blue line in the middle, and the yellow line on the right. The background is white.

SOUTH AMERICA

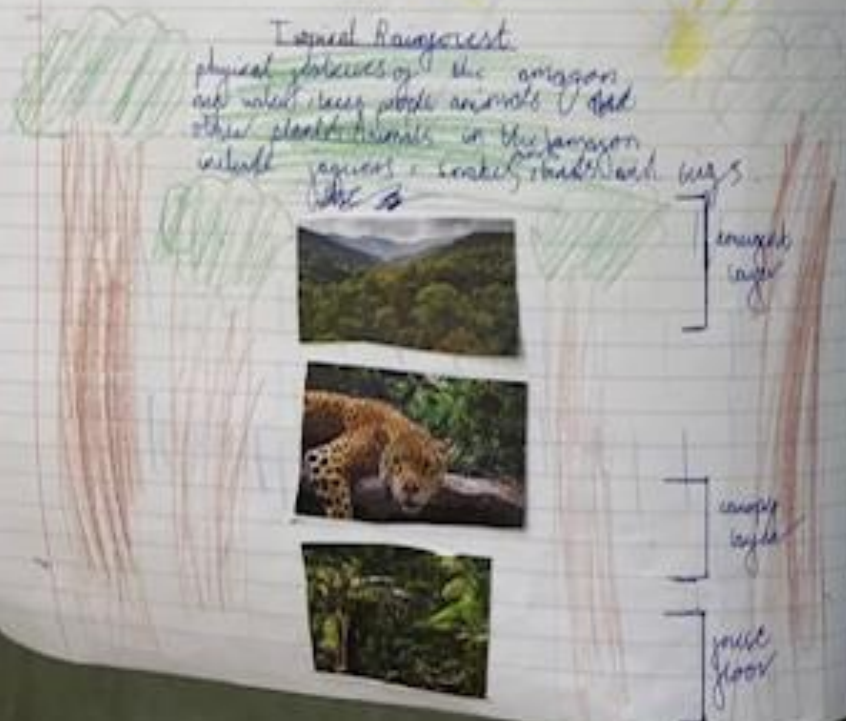

Did you know?
the amazon is
is home to the
longest river in
the world!

South America is a continent in the south east
it is home to the amazon rain forest which is the
biggest in the world. The countries in South America
are Brazil, Peru, Colombia, Venezuela, Guyana,
Suriname and Paraguay.

Tropical Rainforest

physical features of the amazon
and what large plants animals and
other plants animals in the amazon
include jaguars, snakes, toucans, birds.

THE AMAZON

Trade

Trade is basically swapping.
In the amazon people
trade palm oil, rubber and wool.

I'm importing getting goods coming in.
Exporting taking goods out.
The reason we get so much
from the amazon is because
it is warm and the equator
to check is a lot of stuff
there can grow. In the
amazon it is getting out of hand
and is leading to deforestation.

Climate Change

Climate change
is when the earth
gets hotter or is
hotter or colder basically
extreme weather.
It is happening in the
amazon rainforest
it is getting to
HOT.

Deforestation

Deforestation
is when people chop down trees and plants. It
is getting worse because we are chopping faster
than they can grow.

Year 4

PP10 - Zeppelin

14.04.26

• Onomatopoeia

What did the zeppelin sound like?

clang

screech

creak

Spur bang roar

spatter clack clang

Scrape rev Whir

• Adverbials

How did it suddenly appear?

All of a sudden,

Out of nowhere,

like a jet burst

in an instant

without warning

• Verbs

How did it appear through the clouds?

ripped

stormed

dived burst

burst through

strangely emerged

• Noticing - adjective

What did the zeppelin look like?

metallic

repugnant

big oval shaped grey

Bang! Roar! Clang! Screech! It sounded like some old rusty ~~off~~ engine and she suddenly noticed flashing lights bursting through grey clouds. She could tell it was big but not what it was. Without warning the thing burst out of the clouds to reveal... A big, grey, oval shaped zeppelin!

reveal
burst
burst

suddenly

suddenly

21.4.26

My relationships

How do you judge when a relationship is making you feel unhappy/uncomfortable?

relationship
permission
consent
personal boundaries
personal space

If they don't ask for permission and they don't respect your personal boundaries and give you no personal space and if they encourage you to do bad stuff arguing is a unhealthy ~~thing~~ for a relationship so if using a friend for ^{sign} stuff and for benefits. Constantly spreading rumors about you and talking behind your back can be bullying.

TRADE

Trade, Travel and Tourism, some of the things which make our Planet how it is today. However some of the things that we love aren't always sustainable for example fishing can put pressure under every fish living conditions travelling can destroy our the forest and tourism can put negative pressure on other Countries. So how can we stay sustainable.

London travel systems range but one of the biggest forms of transport is train. Because tourism is huge in London there are lots of airports and I'm going to tell you how to get to Heathrow. To get to Heathrow airport go from Queen's Park you'd take the Underground to Whitechapel road then the Elizabeth line to Heathrow airport. To get to Gatwick airport you can take the national rail to London Bridge and then the Gatwick express to Gatwick airport.

Tobacco has been going on for years. Most of the things we import are from South America. The worst things like bananas, blueberries, Brazil nuts, Peas and cocoa beans. The cocoa industry is a 4 billion dollar industry but it has a 50% profit. Out of all this

TRAVEL

Money the poorest only get 0.5% of the money and roughly get only 30¢ a day. To stop these horrible living conditions you can use fair trade. It has a maxium and if it goes down your take profits. From giving them extra money. more sustainable so you'd get something like a chocolate bar.

out your trade. Fairtrade is you can buy things check if it's fair.

When we did our field work we used the most commonly used transport because that's what we have. They emit lots of bad gases which is why to stay sustainable you should cycle. It's still quite good but it doesn't harm the environment.

I think we've answered the question buy fair trade products if you can and walk cycle or if it's a short way take the train to what you need to be.

Year 6

Habitat

20/4/26

Hallelujah mountains are the native homeland ^{for} to the mountain banshee. These lush creatures live on the edges of the mountains for various reasons. Mountain banshees live on the edges because they are dark green which helps them ^{to} camouflage and also ^{enables them to} ready to fly off the edge. As a result, the mountain banshee ^{eat on the} stays at these cliff edges unless a predator ^{arrives} comes. Though the hallelujah mountains seem to be ^{nothing} calm, they are actually very ^{perilous} scary and are 1000 feet up in the ^{floating} air. The green areas contain grass, moss, trees and lots of bugs that blend in with the dark olive green leaves of a tree branch. Their home is located in green areas to hide and make sure they are not seen. A ~~mountain~~ mountain banshee ^{usually} lives in groups of 4-6 so some can hunt and ^{some} can guard the area. The ~~no~~ mountain banshee ~~like~~ likes to fly above the kingslor jungle to see if there is any prey to catch. Because sometimes Hallelujah mountain can be scarce on resources such as ~~food~~ ^{meat} apart of their diet.

HABITAT20.4.26

The viperid lives in the Hallelujah Mountains. Their home has lots of ^{an array} of diverse prey and hiding spots. They like to live in the Hallelujah because it gives them a high survival chance. However, it can be hard to find one because they are normally hiding in bushes.

* ~~AND~~ To increase their survival, ^t they live in the ~~Hallelujah~~ ~~to~~ ~~evitating~~ ^t biome.
