## Odd One Out

7.5.2020

This type of fish is a Stickleback it is an odd one out because in its life it is the only one that through its lifetime will never grow a gill.

There are over four hundred different types of water snail this one is like all the others a hermaphrodite (that's the way it's an odd one out).

I think that the snail is the odd one out because it poos through its nose.

This tadpole is the odd one out because it's the only one that goes through metamorphosis in its later life.

- Combine
- Contrast
- Flavour
- Fresh
- Heat
- Smokey
- Taste
- Texture
- Zingy

For my dish, I ~~have~~ thought I could use:

- couscous
- olives (black and green)
- geta
- grapes
- pepper
- salt
- smoked paprika
- hot paprika
- olive oil

Mgr

I think my dish has Elements from the ~~times~~ Tunisian.

I changed my design ~~because~~ because there was no dried cranberries so ~~used~~ used grapes.

The geta went well with the grapes because the grapes would refresh my mouth after the strong geta taste.

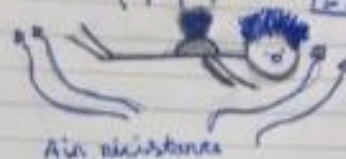

★ were a good combine

The smoked paprika and hot paprika went well to ~~gether~~ ~~comb~~ again I would keep it because of the spice and the heat. The same because it was very nice.

## Air Resistance

12/05/26

gravity

Air resistance

When resistance and air resistance are forces of friction. Friction is sometimes helpful and some sometimes unhelpful. For example air resistance is helpful as it stops a sky diver going splat! Friction on a bike chain can be make it harder to pedal causing friction.

fair test

Fair test

Air resistance

	Paper A	Paper B
Test 1	faster ✓	slower ✗
Test 2	faster ✓	slower ✗
Test 3	faster ✓	slower ✗

How could you make your paper balance the forces of gravity and air resistance?

### Conclusion:

our conclusion was that the scrumpled up piece of paper fell faster this is because the heavier the object the faster it falls the gravitational pull makes it fall faster.

is step on the handle above  
the door.

person have in ability with  
reach a wheel chair.

good food, healthy food,  
dumbbell, and luxurious.

What facilities could you create for a wheelchair user to  
access the penthouse suite in a hotel?

wheelchair  
facilities  
access  
hotel  
penthouse suite

machine  
L-brace

The **light** will have 4 wheels and a string going through  
the groove of the wheels so it can light even  
more the shape will be 4 inches by 4 inches by 8 inches  
and the hotel will be 8 by 8 by 8 inches.  
The four wheels will make things even better than  
using 2 wheels.  
The color of the hotel will be wood brown  
or lit brown.

The pent house has  
lots of room and will  
have a pool.  
on the top floor  
very expensive to  
get.

# Year 6

## Introduction

The viper wolf lives in the deepest part of the Kinglor Forest. their home has plentiful food and water. They like to dwell in the deepest depths of the jungle because they can camouflage however, it can be hard to spot them because of that.

## Diet

The viper wolf consumes Meer deer, mountain banshee eggs and when in a pack of ten, Thantor. They are found in the Mountains of Hallelujah, and the deep wood. Interestingly it caches its food by poisoning them and leaving them to die, each one only has a certain amount of poison, so they normally send new borns to hunt.

The viper wolf usually lives in Herdes of 2-7but on rare occasions have been known to gather in nines. The viper wolf sneaks up on its pray to pounce on and poison it. It will wait for the poison to sink in before it feasts.

The kinglore Forest is a flourishing mess of life. It can be found in a planet known as Pandora. Pandora is well known because of the creatures living on it like polemores, fantor, Meer deer and so much more.

Year 6

# Prolemuris

## Introduction

The prolemuris, a rare animal to be seen alone, can be found in the Clouded Forest, which is on the far east of Pandora. This gentle creature is known for being naturally social. As well as taking good care of each other. Adding to my point, most prolemuris are good friends with arrow dears.
