Primary School

## Autumn Term – Once Upon A Time

### Outdoor Learning

The children play outside in all weathers and at this time of year they need a warm waterproof coat and waterproof shoes so that they are able to benefit from the learning that takes place in the nursery garden.

Please remember to keep a bag of spare clothes in school all the time.

Please bring your book bag to school on Fridays and write a comment in the reading record.

### Autumn Half Term

Monday 26<sup>th</sup> – Friday  
31<sup>st</sup> October 2020

It's been lovely getting to know the new children and watching them develop in confidence as they make new friends and share new experiences. If you would like to see what the children have been up to you can always check the Edmund Waller website where we keep the blog up to date on the homepage.

### Communication Language and Literacy

We've been doing lots to develop children's spoken language and their listening skills; playing games, learning chants, tuning into sounds and listening to familiar stories where we have the opportunity to join in. We've also been working with the children to develop their mark making skills as they draw pictures and ascribe meaning to their marks

### Maths

In Maths we've been learning lots of maths rhymes and songs, using our fingers to show quantities and beginning to count to and beyond ten.

### Tapestry

**We use a secure online learning journal app called Tapestry to capture and share your child's learning. Shortly, you will receive an email from Tapestry asking you to add a password to enable you to access your own child's journal. We hope you enjoy looking at your children's journal and seeing all the amazing learning that happens.**
