

Year 1
Remote Learning
Let's Be Farmers!
Friday 7th May

SPELLING

This week, see if you can learn these tricky words. Remember, a tricky word is a word you cannot sound out the way you usually do. See if you can have a go at these:

he

she

we

me

be

CHALLENGE:

some

come

were

have

there

ENGLISH

In our English learning, we have finished working with the story of Farmer Duck. This week, write your own story about living on a farm. What is going to happen? Is it an adventure story? Remember your full stops, capital letters and finger spaces. Head over to Year one in teams where you will find more ideas.

MATHS

In maths, we would like you to keep practising your number bonds to 10.

E.g.

$$0+10=10$$

$$1+9=10$$

$$2+8=10$$

$$3+7=10$$

$$4+6=10$$

$$5+5=10$$

...and so on.

Can you draw them by using different coloured circles? 9 red and 1 blue makes 10 all together.

TOPIC

This week in topic, we have been learning about where our foods come from. We looked at milk and bread. *Can you make a map of the journey of milk? Where does it start? What happens next? How is it pasteurized? Do the whole journey, right up to when it gets to be on the shelves in a shop.*

Your Task!!

Don't forget to log on to Teams using your new logins and passwords to complete this week's maths assignment which is based on our learning around counting in 2's and 5's. Watch the loom for more information.
