

FRIDAY 12TH MARCH 2021

'DESIGNING FOR LIFE'.

Maths

For revision of the latest maths we have covered in school, watch the video above about calculating fractions of amounts.

Keep regularly practising your maths skills on Doodlemaths and Doodletables.

Take a look at next week's learning on decimals. Click on the icon to go to a booklet of questions on decimals.

Click the video to the right to watch a White Rose lesson on decimals.

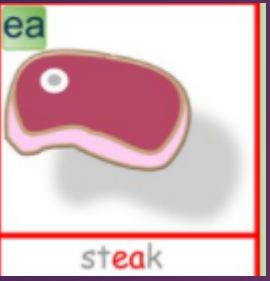

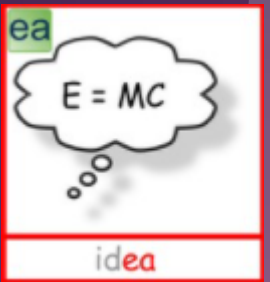

English

These words all have the common digraph of /ea/ in them. A digraph is just a two letter grapheme that makes a sound.

The /ea/ grapheme can make many sounds or phonemes. Watch the video below to learn more and make a table of which words belong with which sounds.

Can you group more words with ea in that are not listed here?

Topic

Did you know that Coca-Cola, microwaves and crisps all have something in common?

They were all invented completely by mistake!

To follow on with our inventions topic, we would like you to research more inventions that were discovered by mistake.

What was the story behind the discovery?

Post your research into the topic section of the year 5 team in TEAMS.
