

Year 1
Remote Learning
Let's Be Farmers!
Friday 14th May

SPELLING

This week, see if you can learn these tricky words. Remember, a tricky word is a word you cannot sound out the way you usually do. See if you can have a go at these:

all
her
Was

CHALLENGE:

little
one
they
there
when

ENGLISH

We have started learning the story of Handa's Surprise, a book about a little girl in Kenya who has the fruit from her basket stolen by some wild animals! You need to write a diary entry, pretending to be either Handa or Handa's neighbour, who saw everything happen.
Dear Diary, the strangest things happened on my walk to Akeyo's village, today...

MATHS

We would like you to practise halving and doubling numbers.

Remember, halving is the opposite (the inverse) of doubling.

Double then half these numbers:

4	6	8
14	20	12
32	44	52

TOPIC

We have been learning about the different types of animals that are found in Africa, when compared with Britain. You need to choose an African animal and make a **fact file** about it. How is it **adapted** to its **habitat**? Why is it shaped this way? Why does it look like this? Does it have claws? Why/why not?

Draw a picture and label it to show what all the parts of the animal are there for.

Your Task!!

Don't forget to log on to Teams using your new logins and passwords to complete this week's maths assignment which is based on our learning around counting in 2's and 5's. Watch the loom for more information.
