

# Year 1

## Remote Learning

### Let's Be Farmers!

Friday 30<sup>th</sup> April

## SPELLING

This week we will be focusing on some tricky word spellings from our Farmer Duck story.

to  
the  
was  
you  
into

## CHALLENGE:

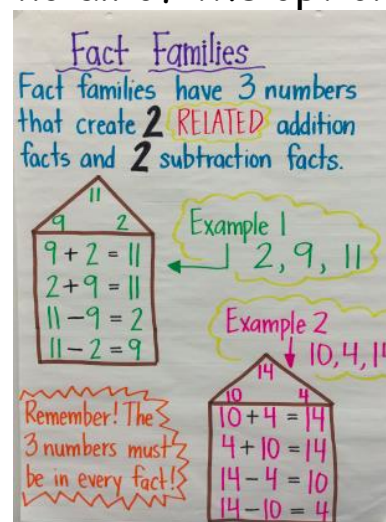

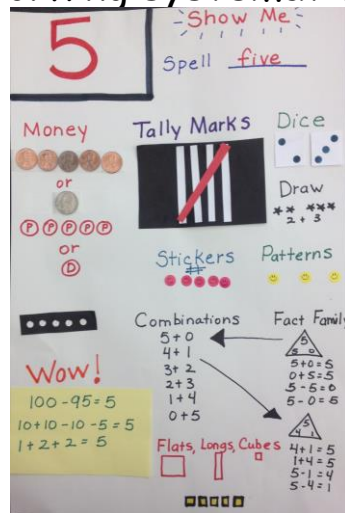

once  
they  
said  
there  
were

## ENGLISH

In our English learning next week, we will be creating our own version of **Farmer Duck**. We will get creative and come up with our own characters and what jobs he has to complete. We are focusing on using our new story maps to help us remember the story as well as using our **capitals** and **punctuation** when writing our story.

## MATHS

Last week we looked at the relationship between numbers and how this can help us when we are adding and subtracting. Next week in Math, we are going to be investigating *number facts*. When finding all of the number facts for a number we will be using addition and subtraction as well as working systematically to find all of the options.

## TOPIC

This week in topic, we will be discovering different types of farms. For example, dairy farms, orchards, cattle farms or farms that harvest crops such as corn.

*For Science, we will examine the lifecycle of plants and plant our own beans to observe how they grow and change.*

## Your Task!!

Don't forget to log on to **Teams** using your new logins and passwords to complete this week's maths assignment which is based on our learning around number facts. Watch the loom for more information.
