

On Monday, some interesting parcels appeared in our classrooms. They were little London buses!

Where did they come from?
Where have they been?
No one knows!

Have you ever seen the 177 bus? It goes past the end of Waller Road!

Maths

Special Challenge:

First, find a safe place to stand by the road. Your challenge is to find as many buses as you can whilst you stand at your spot for 2 minutes. What about if you watch for 5 minutes?

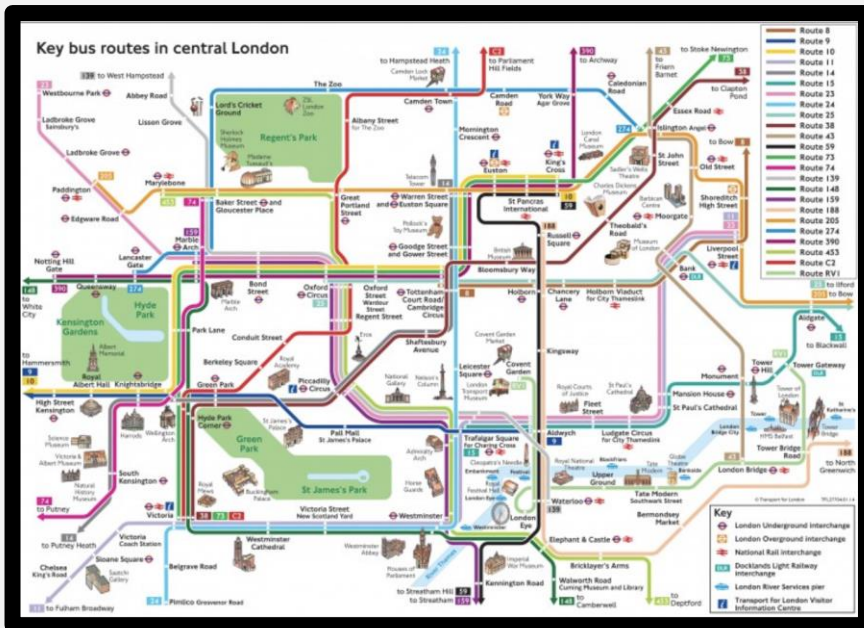

This week we would like you to try and spot buses in the local area.

Notice the numbers on the buses, their destinations and if they are single-decker or double-decker buses.

Topic and Literacy

This week we would like to think about a bus journey you have been on.

If you have a chance to, you could even go on a short bus journey this week.

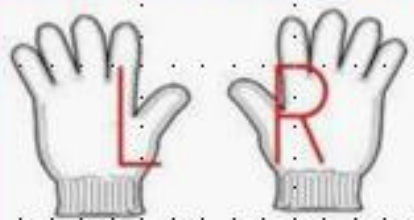

Can you write a note to tell us about your bus journey? Think about these things:

- Which bus did you take?
- Where were you going?
- What could you see while you were on the bus?

I know left and right

Hold your hands up palms away.

Left

Right

Vocabulary:

- **adventure**- an exciting or unusual experience
- **compass**- a tool we can use to show directions
- **dangerous**- something that might harm us
- **island**- land that is surrounded by water
- **map**- a picture that shows us important landmarks in an area
- **treasure**- objects that are special to us

We Love Adventures! Knowledge Organiser

- I can draw my own maps with important landmarks
- I know that I live in England which is in the United Kingdom
- I know that the capital of England is London
- I know I need to wear sun screen and the right clothes to protect my body from the sun.
- I know I need to drink water to stay hydrated.

The Queen's home in London is Buckingham Palace.

Tower Bridge can open so that tall ships can travel underneath it.

What does an adventure look like?
