

Good morning Year 4. We hope that you have a good weekend. It is your last full week of home learning, so keep going! You have all been amazing! Just a quick note about the maths from last Wednesday. There was a mistake on one of the puzzles so apologies for all those that tried really hard to work it out and couldn't find the solution. The puzzle is below if you would like to work it out again. If you scroll down you will find the solution at the end of today's work.

Maths

I have fifteen cards numbered 1 – 15.

I put down seven of them on the table in a row.

The numbers on the first two cards add to 15.

The numbers on the second and third cards add to 20.

The numbers on the third and fourth cards add to 23.

The numbers on the fourth and fifth cards add to 16.

The numbers on the fifth and sixth cards add to 18.

The numbers on the sixth and seventh cards add to 21.

What are my cards?

Can you find any other solutions?

How do you know you've found *all* the different solutions?

This week, we continue our learning of prefixes. Today's prefixes are 'im' and 'in'.

The prefix 'in' and 'im' means **not or the opposite of**.

For example incorrect is the opposite of correct.

Most of these are words that we have used but there are some unfamiliar words that you may not know the meaning of.

First make sure you understand what each of the words mean. Then write each of the words in a sentence.

Topic

Last week, we looked at how carnival is celebrated in Trinidad and Tobago and how it started.

Today you are going to find out **how** and **why** Notting Hill Carnival started. This is a carnival that takes place in Notting Hill, West London in August.

When you are researching find out –

- How did Notting Hill Carnival start?
- Why did it start?
- How do people celebrate carnival?
- How does it compare to the carnival in Trinidad and Tobago?

You can record your work however you choose. It could just be notes or you could make a poster or leaflet.
