Here is the video of The Wishgranter if you would like to watch it again before completing today's task.

You are going to write thought bubbles for each of the characters that made 3 wishes.

What do you think they were thinking about before they decided to make their wish?

What were they thinking about as they walked towards or saw the wishing well?

What were they thinking about as they made their wish?

What were they thinking as they walked away?

Remember to do your writing first before drawing your thought bubble around it.

Maths

Evie has nine cards, each with a different number from 1 to 9 on it. She put the cards into three piles so that the total in each pile is 15. How could she have done this?

Can you find all the different ways?

You can only use each number once. Remember you are trying to make 15 in total in each pile. You could make your own digit cards above to help you.

Below I have started one off for you.

Pile 1

$$7 + 8$$

Pile 2

Pile 3

So I can't use 7 and 8, as I have used them already. What other numbers can I use that will add to 15. Pile 2 needs to add to 15 and Pile 3 needs to add to 15. Don't use the same number again.

Topic/Dance

You have now looked at how carnival is celebrated in two countries- Trinidad and Tobago and the UK. The last country that we will look at is Brazil.

Carnival in Brazil is celebrated much like the other countries that we have looked at. People dance, wear costumes and have a good time. Carnival in Brazil was originally a food festival before Lent where people would eat lots. A mixture of African and Portuguese culture has resulted in the big party of music, costumes and dance that is Brazil carnival.

As you know, our song for the summer concert is from the film Rio. If you have watched it before you can see what an amazing celebration carnival is in Brazil.

We would like you to come up with a dance to our summer concert song. https://www.youtube.com/watch?v=pYGX3rOLT_s

Below is a video of some dance moves you can incorporate into your dance. You do not have to use them but they may give you an idea of where to start.

If you need more support this link will take you to short videos that break down the moves.
